- Employee tracking turns off when the employee clocks out.
- Reduce operating cost.

Spoter Servers Networks

3. SPOTER Tyre Guard

Spoter Tyre Guard for Tube Type and Tubeless Tyre Seals puncture quickly and automatically, Lowers tyre temperature and extends tyre life. It is a solution to fix a flat tire until it is possible to get it repaired or replaced.

Spoter Tyre Guard is suitable for all vehicles – Bikes, Cars, Buses, Trucks, Commercial, Heavy and OTR Vehicles. The ingredients in Spoter Tyre Guard are non-hazardous, Environment friendly and biodegradable. The product is fully water soluble and may be washed away with water. We use a technology which is not matched by any other tyre sealant available anywhere and can prevent punctures in tyre treads of up to ¼” [6mm] in 95% of tubeless tyres and up to 75% in tube tyres. It is formulated for any vehicle with all types of Tyres, tube or tubeless, high or low air pressure and used in Highway speed vehicles or slow off road equipment Tyres, two wheelers, four wheelers, Bus, Truck, Dumper, Trailer , heavy equipments etc.

The product is installed into the wheel via the valve before the puncture occurs. As the wheel rotates the product is distributed in a forward motion, this applies a protective coating on the inner lining of the tread area of the tyre. When a foreign object penetrates the tyre the air pressure from within instantly forces the sealant into the puncture wound creating a temporary self-sealing tyre. By sealing the puncture instantly offers the driver extended mobility and allows the vehicle to continue their journey this helps to reduce the risks involved in roadside wheel changes. Our products range helps to eliminate costly vehicle and equipment downtime due to punctures and blowouts and has been proven to reduce overall tyre expenditure. It works in any weather condition and temperature. To seal the puncture car / bike/ vehicle must be drive immediately to seal the puncture. In tube type tyre if the tyre is flat, just remove the nail and refill the air again and drive immediately to seal the puncture.

Benefits:

• Seals puncture immediately.	• Lesser need to replace tyres.	• Saving of money and time.
• Safer and trouble-free drives.	• Reduced downtime costs	• Prevention of accidents
• Protection against high speed blowouts and punctures.	• Maximum extension of your vehicle tyre life.	• Increased fuel efficiency
• Tyres that are in perfect running condition. Increased customer satisfaction	• Does not affect manufacturers or extended warranties on tyres.	• No irreparable damage to tyre caused by bearing vehicle weight even after puncture.

Usage Policy:

1. Motor Cycle	350 ML Per Tyre.
2. Small Vehicles like Indica, i10, Verna, Swift etc.	500 ML Per Tyre.
3. SUV / XUV Vehicles like Tata Sumo, Bolero, Scorpio, Inova etc	600 ML Per Tyre.
4. Mini Bus / TATA 407 / TATA207 / Pickup VAN types vehicles	2 Ltr. Per Tyre.
5. Standard Bus, truck etc.	3 Ltr. Per Tyre.

Pricing :
