

SPOTER SPEED LIMITER

We are the standout organization which has gained name and fame in offering one of the best range of GPS Vehicle tracking system provider in INDIA. We are launching Fuel Based Speed Governors for Euro 2 , Euro 3 Type vehicle . These Speed Governors are available in outstanding quality and give excellent performance with high efficiency according to the choice or demand of the customers. Last but not the least, these Speed Governors are offered to the client at the affordable prices in the market.

Features:

- Easy to install
- High efficiency
- Low maintenance
- Longer service life
- Optimum performance

Optional Features:

- Better safety of all Road users by avoiding over-speeding.
- Increased Fuel Efficiency
- Automatic – Preventive rather than reactionary.
- Improved Operational Efficiency.
- Reduced strain on engines, thereby increasing the life of engines.

Speed Governor consists of Three basic components:

- Electronic Control Unit (ECU).
- Fuel Control Valve / Actuator.
- Speed Sensor.

The speed governor limits the maximum speed of the vehicle to a single preset speed, [i.e. 60kmph.] Thus the vehicle would run at a maximum speed of 60kmph while driving anywhere in the country – Delhi, Karnataka, Kerala, Maharashtra etc; within city and on highway.

This device made maintaining ARAI [Automotive Research Association of India] and ICAT [international Centre for Automotive Technology] standard and specification. The sample device is under testing by ICAT [international Centre for Automotive Technology].

We already developed Advance digital certification system as well as GPS where anyone can check their certificate online.
