

SPOTER

Satellite based Vehicle Tracking System

Dear,

Thank you for showing interest and allowing us a opportunity to introduce you to SPOTER - A Satellite based Vehicle and Fleet Management System and Solution.

Spoter is a comprehensive device, which helps a owner to Track, Monitor, Safe-guard, Control and Manage a vehicle, driver, Goods and Fleet through a single web interface.

Due to its low-cost and effective management, it make easy to process and monitor operations for fleet owners like Logistic, Transport, Education, Rental Service operators, corporate companies, Hospitals, Security Services, Government and many other types of Organisations and Agencies.

The essence of telemetry and use of location based services (LBS) is to enhance security, efficiency and reduce operation cost. In addition, it also enhances effective monitoring and control of personnel and assets.

Spoter is an advanced Vehicle Monitoring System with advanced management capabilities that offers much more features than a standard GPS Tracking system at comparable, or in most cases lower cost. The system is backed by technicians and engineers with the ability to customize expand and successfully deploy it to virtually any application. Our System, tracks current location and speed by 24 Satellites which assures the owner of best and quality services as compared to other similar looking products in Market.

The features included in our Basic model for customers are as follows'.

- 1) High sensitivity GPS chip-set.
- 2) Built-in switching power supply, wide voltage input: 9V to 24V.
- 3) Optional SMS functionality supported.
- 4) Built-in monitoring CPU, automatic fault recovery.
- 5) Support GSM 900/1800MHz cellular network as data carrier.
- 6) Built-in GSM and GSM Antenna.
- 7) Built-in Storage Capacity.
- 8) Optional Wire-tapping (Voice monitoring) - Optional.
- 9) Inbuilt motion sensor for power saving and exact location identification.
- 10) SOS panic button - Emergency Purpose.
- 11) Geo- fencing control.
- 12) Low battery alarm.
- 13) Over speeding alarm.
- 14) Portable, easy to install.
- 15) Can be used as Parent tracker, Pet tracker, Asset tracker, Child tracker.
- 16) Real Time System View (Track a wide range of vehicles at a time).
- 17) On board data storage (The tracking information of 30 days of vehicle stored automatically.)
- 18) Advanced Reverse Geo-coding based on accurate google map data (accurate street names for stops)
- 19) Flexible Reporting Platform (Time on customer site, over idle, service / odo-meter, stop with distance travelled, geofence reports, etc.)
- 20) Mobile interface (View vehicle locations from a mobile device)
- 21) Anti-theft protection.
- 22) One year Standard warrantee.

BENEFITS

- **Internet Tracking:** we offer real-time tracking, i.e. you have complete control of your vehicles by monitoring its activities on-line.
- With the **enable/disable** facilities, Theft and Misuse of automobiles and other assets will be reduced.
- With its effective work distribution and monitoring, staff productivity will be enhanced.
- Reduce cost with fuel sensor to monitor fuel loading and usage.
- Safe-guards vehicles by monitoring maintenance, as well as on time information during accident or theft.
- Customized reports for various departments e.g. Admin/Finance etc.
- Accident dispute can be managed better by monitoring speed and driving habit of the driver.
- **Speed:** it has a perfect fast speed in operation between user and vehicle.
- Uses SMS and Internet for presenting reports.
- **SMS alert:** receive additional SMS for specified events on your vehicle.

The solutions we offer provide visibility of your vehicle anywhere in India we also have significant technical advantages over other competing products in the market today. These solutions allow you to:

- Increase safety of vehicles and occupants
- Reduce operating cost
- Have control of your vehicles
- Reduce risk of theft to the barest minimum.
- Increase productivity.
